Table 1: Name of the table

Revision	Author	Date	Comment
1.0	Urban Baš	30.5.2018	

2. Introduction

This manual shows how to update or install plugins in Dewesoft.

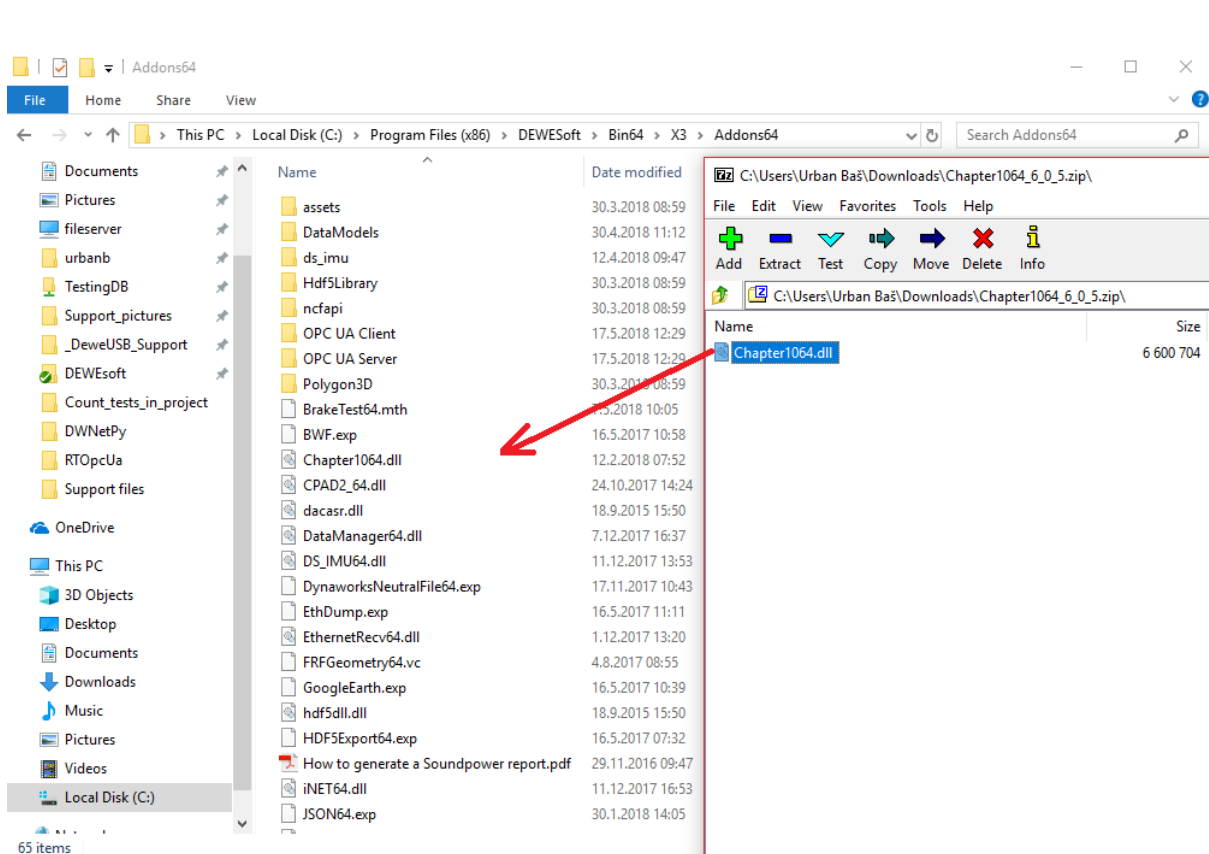

3. Download the plugin from our download web page

Download the plugin from this web page: <https://www.dewesoft.com/download#Plugins>

Most plugins are made specifically for the 64-bit version or 32-bit version so make sure you download the correct one.

4. Updating the plugin

Open the downloaded .zip file and copy the contents into the Dewesoft Addons folder (e.g. C:\Program Files (x86)\DEWESoft\Bin64\X3\Addons64)

The old plugin files need to be replaced (copy and replace).

5. Conclusion

With that the plugin is updated/installed and you can check if its properly installed if you click on options and select “installed extensions”.
